LOANS AGGREGATOR AS A FEATURE OF C3 PLATFORM

- ✓ *A KEY FEATURE OF THE EXTENSION IS THE MONITORING AND AGGREGATION OF THE BEST OFFERS IN THE CONSUMER CREDIT AND MICROCREDIT MARKETS.*
- ✓ *We do not present ourselves as an organisation that provides credit. We act as an aggregator, where all the crediting offers are collected from our all banks partners.*
- ✓ *With our loan search tool C3 empowers the loan seeker to make decisions based on informed and efficient financial data. Finding a loan offer that perfectly suits client's needs used to take months of applications with banks in person – and even today, one can spend hours going through all the different providers online – now it takes only a few moments with C3.*
- ✓ *C3 payment application will enable the clients to select all the credit offers from all bank partners and activate them in one click.*
